

In the Description:

Page 3, lines 18 to 21 change "ReferringFig. 4." to

—Referring to Fig. 2, when in use, the nose rest 13 rests on a distal end of the nose of the user. At the same time, as indicated in Fig. 3, each temple 12 extends in an upwardly angled direction from the frame 11 to permit access laterally to the eyes of the user for the application of makeup as indicated in Fig. 4.—
